GPO-1 H722 12/8/2009

H722 is an all-purpose GPO-1 fiberglass mat reinforced thermoset polyester molded sheet. Available in thicknesses ranging from .031" - 2.00". Standard color - Natural. Meets Gov't Specs - LP-509, I-24768/6.

| Physical | Test Method | Unit | Result |

Unless otherwise indicated, all properties published are based on test performed on standard ASTM test samples and according to ASTM test methods. Values shown are for test samples made from production materials and they are believed to be conservative. No warranty is to be construed, however, in fabricated or molded form, parts may vary considerably from this standard test data. Where specific or unusual applications arise, test should be made on actual parts, and test procedures agreed upon between Haysite Reinforced Plastics and the customer.
