Re: EU Directive - ROHS 2

Regarding European Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 concerning restriction of the use of certain hazardous substances per ROHS 2:

Based on information as supplied by our raw material vendors and Haysite's formulations used in our products, the concentration levels of the chemicals and compounds listed, are not present or are below the maximum concentration by weight in homogeneous material for the ROHS 2 list, which includes lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE).

Re: EU Directive – REACH

Regarding Article 33 of the European REACH Regulation No 1907/2006/EC on the Registration, Evaluation, Authorization and Restriction of Chemicals which, concerning restriction of the use of certain hazardous substances per ROHS:

Based on information as supplied by our raw material vendors and Haysite's formulations used in our products, all of Haysite's products are compliant to the REACH Directive for the list of Substances of Very High Concern (SVHC) updated on June 20, 2016.

Based on information as supplied by our raw material vendors and Haysite's formulations used in our products, all of Haysite's products are compliant to Annex XVII to REACH.

Based on information as supplied by our raw material vendors and Haysite's formulations used in our products, all of Haysite's products are compliant to Annex XIV to REACH.
